HORSE JUMPED ON HIM.
E. M. Fay Confined to His Home by Injuries Received.

Emil M. Fox, proprietor of a Franklin street bakery, is laid up at home with severe injuries to one of his knees, received on Thursday while leading a horse through Willow street. The animal was a seven-year-old gelding, and was leading a halter, when it suddenly jumped, coming down with its forefeet on his leg and knocking him to the ground. He held to the halter and was dragged around through Willow street and into Chestnut by the pluming horse. In front of the station he had to let go his hold, and the horse was caught later, while Mr. Fox was assisting him.

A doctor who has treated him says that one of his knee joints is seriously injured, and he will be confined to the house for some time.

WHY BIRDS MIGRATE.
Instructive Paper Read Before the Waterbury Naturalist Club.

"Migration" was the subject of an interesting paper read before the Waterbury Naturalist club this week by the club president, Walter Pladd. He spoke first of the history of birds and their theory of Aristotle and other authorities regarding migration. Of the causes of migration he said that temperature, a desire for seclusion during the nesting period and atmospheric conditions had much to do with the constant moving of the birds.

"Temperature alone," he said, "does not materially affect them, but atmospheric conditions exert one of the strongest influences, while the food supply is another factor. Of the birds which remain here during the year, he spoke of the chickadee, the goldfinch, woodpecker and bluejay. Most western birds remain in Mexico throughout the winter, while the eastern birds stay in the middle states. Insectivorous birds for the most part go to Cuba and South America, the bobolink going as far south as Brazil, while snipe and plover winter on the coast of Patagonia.

"The bolder and strong winged birds," said Mr. Pladd, "travel by day, light, but the timid and feeble winged and warblers travel almost entirely by night. The birds follow a well-defined highway following the coast or mountain ranges or river systems."

He spoke in detail of the time when the males usually precede the females and are usually installed when the latter arrive.

The address was followed by the reading of an article on bird life, when there was a general discussion.—Waterbury Republican.

TRIAL OF STRIKERS
LASTED ALL DAY.

Two Were Fined \$35 and Costs, Four Received \$5 and Costs and Two Were Discharged.

In the city court on Friday the entire day was occupied with the trial of the cases of the nine strikers at the Falls mill who were taken to court on breach of the peace, intimidation and relating an officer. There was much testimony which was slow because an interpreter had to be used, and it was not until 5.45 that court adjourned.

After hearing the evidence and arguments, Deputy Judge Barnes charged two of the men. He found W. D. Dudge, Michael Bohanna and Michael Zacharewicz guilty of breach of the peace, for which they were fined \$10, and for resistance and contempt, their bills amounting to over \$47 each. The last named paid. Four others were fined \$5 and costs, and two were discharged.
